Skills

Can pick up coding pretty easily. Envisions 3D objects better than most, allowing greater skill at three dimensional modeling. Works hard, and get things done on time. Follows instructions down to the letter, except situation demands otherwise. Is kind and thoughtful of others feelings and thoughts. Pays close attention to details. Finds ways to speed activities up while keeping the same quality, and at times even improves quality. Can understand and speak Spanish fluently. Optimism is beyond reason.

Experience

Awnya's Jewlery Bling/ Shipping specialist

August 2019 - N, Rio Rancho NM

Take items from inventory and package them from online orders. Then labels the packages and mail them. Update product totals on computer.

Youth Council Representative

January 2020-December 2020

Planned and coordinated youth activities.

Robo-Rave competition

Participated in multiple competitions. Placed second in the linefollowing challenge.

Boy Scouts

2008 - 2018

Participated in boy scouts since age eight. In 2018, troupe was shut down, halting progress at rank firstclass. Boy scouts taught important life skills like first aid, equipment safety, and certified me for swimming.

Little Caesars

May 2021 – September 2022

Worked as a crew member. Exceeded at working well under pressure. One of the fastest and high quality producing employee. Worked well with other staff, no complaints. Always got work done, as well as helped others activities. Shifts he was on went exponentially smoother, while morale of other employees was increased.

Dominos

December 2024

Worked as a crew member. Accomplished a variety of tasks throughout the day while maintaining items stocked for use. Worked well with other staff members. Always got work done, as well as helped others activities. Though time working here was short, I made connections with the other employees and am still in contact to this day.

Education

Cleveland High School / Freshman (9th grade)

August 2018 - May 2019, Rio Rancho NM

Was on the waiting list for The Ask Academy. I attended after school clubs and worked with others on projects.

The Ask Academy / 10-12

August 2019 - May 2022, Rio Rancho NM

Taking classes specialized towards engineering at Ask. Attended after school clubs here. Learned engineering skills that include: 3D modeling software, coding, circuitry, product design, and reverse engineering.

Brigham Young University Idaho

January 2025 - Present, Rexburg Idaho

Currently majoring in Software Engineering. Working on a project that involves AI image generation and a learning module in an attempt to recreate art style based on input images.
